

FienX Toolkit Summary Terms & Conditions

Core License Grant

- **Validity period:** PERPETUAL (subject transfer restrictions and revocability).
- **Scope:** NODE-LOCKED, i.e. locked to a single computer. Can be transferred to another computer up to 5 times.

Restrictions and Prohibitions

- **No reverse engineering:** You may not decompile, change, or hack the code.
- **No redistribution:** You may not share, resell, or host the add-in for public access. The add-in may not be activated on virtual machines.

Updates and Support

- **Maintenance:** The software is sold “as is”.
- **New versions:** Any updates, if and when released, can be downloaded from our website.
- **Technical support:** This is limited – at our discretion - to add-in installation and functionality only. It does not extend to general Excel use, spreadsheet model development, or interpretation of results.

Support for model building and output interpretation (consulting service) is available at additional charge, to be quoted separately.

Ownership and Intellectual Property

- The user will hold full responsibility for, control over, and ownership of the data used and spreadsheets created with the add-in.

Legal Protections

- **Trial period:** A 14-day trial period is offered for the user to evaluate the “PRO” software.
- **As-is delivery:** The add-in is provided without guarantees of error-free performance.
- **Liability:** Fien Consulting will accept no liability for damages resulting in any way from the use of the add-in.

Guarantee & Refunds

- **Our guarantee:** Our add-in is “code signed” to warrant your trust. Upon compilation the add-in and template workbooks are virus-free, trojan-free, do not obtain user data and do not divert user information. If you encounter a warning from anti-virus software, we recommend that you send the file to your anti-virus software provider for malware analysis. They should be able to confirm that the detection is incorrect and issue an update to clear that detection.
- **Sales are final:** Given the two-week trial period, all subsequent sales are final. No refunds are offered for perpetual licenses.

Termination

- **Breach of terms:** Fien Consulting may revoke a licence if clear violation of terms is detected.
